

WARNING:

First try **FITC v8.1.40.1456**. Check that you can import and build your image,

WITHOUT ANY ERRORS!

If you see this or any other error message while importing or building an image,

DO NOT CONTINUE!

The error above is shown **ONLY** at 8.1.10.x or previous 5MB firmware releases.

Try **FITC v8.1.10.1286** instead. Check that you can import and build your image,

WITHOUT ANY ERRORS!

If the errors persist and you are loading a proper ME8-only image,

DO NOT CONTINUE!

&

LET ME KNOW!

NOTE:

These **FITC v8** tools are **ONLY** for 7-series/C216 or 6-series/C600/X79 systems with **ME8** firmware images.

For Cougar Point (6-series) or Patsburg (X79/C600) systems with **ME7**, use

ONLY FITC v7 releases!
